

hallenweg's studio tour

Indulge in local culinary offerings and a more intimate side of DDW at Hallenweg, a 'secret place' hidden between the Hoogstraat and the Bergmannstraat. This little corner of the Gestel area with its tiny streets and small industrial halls will fill you with good food, good conversation, and a sense of coziness special to this neighborhood.

Inspire your other senses along the way with artfully prepared seafood from [Zijpestijl's](#) traveling food truck or fill your belly with rich savory treats by the [Guilty Pleasures](#) duo. Sip on a delicious tea, juice, or drink by the folks at [\(H\)eerlijk Anders](#).

And importantly, get a rich cup of coffee with a sweet treat at [Public Pie](#) in front of the Bergmannkerk. Watch how the pies are made and take a seat on their oven-warmed bench that keeps your buns cozy while you eat your pie!

Take a stroll around the studios of Hallenweg. Visit DDW ambassadors [Atelier NL](#) to explore their latest glass

project 'To See a World in a Grain of Sand' and a 'glass bar' by students of Hochschule der Bildenden Künste Saar and Design Academy Eindhoven. Sneak into the world of Jeroen Wand and see the factory where he makes furniture. Go to the [Blickfänger](#) studio to discover the latest work by [Isabelle Quiroga](#) or check out the revamped showroom of design label [Vij5](#) who will present 10 new products by ten different designers.

Visit [Studio vd Zandt](#) to check out [Frederike Top](#) and [Simone Smelt](#) newest designs. While you're there, see unique textured rugs by [Nina van Bart](#) and [Eduard van Vliet](#)- [Louise Cohen-Alissa Rees'](#) green lamp that filters the air with plants. Explore at studio [KookSchoolKunsten](#) a spatial installation including new sculptural lighting objects by Amsterdam-based [Rive Roshan](#), forming the backdrop for [Form&Seek's](#) first collection of crafted design objects. Continue your DDW tour at [De Fabriek](#), which will be hosting [kunstenarscollectief 019](#) and [LUCA School of Arts](#).
